

Research Talks

Lecture series

- 2024.07.29. Growth of (sub)groups with hyperbolicity. (3 lectures) *Geometry in Groups 2024. TIFR-ICTS, Bangalore, India.*
- 2024.05.03. Hyperbolicity of geodesics, counting and random walks. (4 lectures) *Riverside Workshop on Geometric Group Theory 2024, UC Riverside.*

Invited Talks

- 2024.09.24. Genericity of pseudo-Anosovs and quasi-isometries. *KIAS-Rice Workshop on Geometric Topology, KIAS HCMC.*
- 2024.06.25. Sullivan's conjecture, Myrberg limit set and Hausdorff dimension. *One day workshop with Young Geometric Topologists at KAIST.*
- 2024.05.13. Continuity of escape rate of random walks on CAT(0) spaces. *Dynamics of group actions and random walks on groups, Fields Institute.*
- 2024.04.08. Genericity of pseudo-Anosov mapping classes. *Young Geometric Group Theory XII, Bristol, UK.*
